

# COMP390: Evolving a Sorting Algorithm with SNGP

Robin Lockyer

University of Liverpool

03/2019

Introduction

Genetic Programming Overview

Single Node Genetic Programming Overview

Reproducing Kinnear's Results

Attempting SNGP

Conclusion

Bibliography

# Project Description

## Aims:

- ▶ To replicate K. E. Kinnear's work [2] in evolving a sorting algorithm using Genetic Programming
- ▶ To re-implement Kinnear's work using Single Node Genetic Programming, a variant of GP invented by Dr David Jackson [1]
- ▶ To compare the effectiveness of the two approaches to evolving a sorting algorithm

# What Was Achieved?
